Irby, Esq.*, 3536. Occurrence of the Gull-billed Tern at Scilly; Occurrence of the Iceland Gull at Scilly, *Edward Hearle Rodd, Esq.*, 3536. Swans breeding at the age of Two Years, *S. Gurney, jun., Esq.*, 3536.

ZOOLOGICAL NOTES AND QUERIES.

Can Oysters be fattened?—In reply to Mr. E. W. Hurt, I beg to state that oysters cannot be fattened by oatmeal, or any other artificial means of feeding them. If they are packed fresh from the beds, the deep shell downwards, so that they cannot open, they will keep from seven to ten days, and be the better in quality, feeding upon their own liquor. Oatmeal is sometimes added to the water in which they are kept by dealers; but at the same time that it adds to their whiteness and puffs them out, it destroys their flavour and shortens their life.—*John S. Sweeting*; 159, *Cheapside, City*.

Nearly ready, in One Volume, 8vo., with an Engraving of a Miniature Portrait of Mr. Kirby in his youth, and a View of Barham Parsonage,

LIFE of the Rev. W. KIRBY, M.A., F.R.S., F.L.S., Rector of Barham, Suffolk; Author of one of the Bridgewater Treatises, &c. &c. Drawn up, chiefly from his Journals and Letters, by the Rev. JOHN FREEMAN, M.A., of St. Peter's College, Cambridge, Rector of Ashwicken cum Leziate, Norfolk. Including a Sketch, by WILLIAM SPENCE, Esq., of the History of his Forty-five Years' Friendship with Mr. Kirby, and of the Origin and Progress of the *Introduction to Entomology*; with numerous Extracts from Mr. Kirby's Letters to Mr. Spence.

London: Longman, Brown, Green, and Longmans.
